

Butterflies!!

You and your child can watch your very own caterpillar change into a colorful, lively butterfly!! What better way to experience the expectation and understanding of Easter?

It's easy! You will receive a kit with complete instructions. Each Painted Lady Caterpillar comes with a life-long supply of nutrient and is self-sufficient until the chrysalis stage, when you transfer it to a mesh butterfly house. They are expected to emerge during Holy Week.

We will release the butterflies on Easter Sunday at 10:15 a.m.
